

We Love Our Union!

Let's Put SEIU Back on Track

Like you, members of SEIU United Healthcare Workers – West (UHW) are proud to be part of a dynamic and growing union. We've helped lead the drive for worker rights and progressive change in California, and our local union has devoted resources and staff to help SEIU locals build worker power and organize the unorganized in other parts of the country. We're proud of our tradition of activism and advocacy on behalf of SEIU members everywhere.

That's why we're troubled by the direction our International Union has taken in recent years, where the voice of members often has been muted, or ignored, and standards we've fought for over the years have been threatened. We're troubled when our leaders make secret deals with employers that take away worker rights, including the right to speak out about poor care in our facilities.

Because we love our union, we've developed a Platform for Change that would put our union back on a course that ensures our core principles of strengthening workers' rights, growing the union in a way that builds real worker power and giving us the credibility to lead the labor movement forward at this critical time in our history.

Please ask us about the new Platform for Change. You'll recognize us by the "Let's Talk!" stickers we're wearing. You can also find out more by calling us at 1-888-265-4727, or send us a text message at 510-714-5094.

Let's Talk!

We Can Really Be Stronger Together

Platform for Change
